

Staffing

- Labor cost per procedure represented the average hourly wage multiplied by the number of staff and the average procedure time.
- Two organizations did not give hourly salary information; one organization had too few cases to be included in the benchmark comparison.
- As many as 4 RNs were used per case (Organization 2009 used 4 RNs). As many as 2 Techs were used per case.
- Average RN hourly salary was \$22.02.
- Average Tech hourly salary was \$9.72.
